Translation (by Khiyo)

You don't come close, you don't show yourself
How much longer should I remain far away
How do I get to know you
Oh, precious Lord
How do I get to know you.

Ensnared in the net of worldliness
How long should I remain
I think to myself that I should leave everything behind
To find you

I hope for light but sink into darkness
How do I get to know you
Oh, precious Lord
How do I get to know you.

I chant and recite mantras but see that
You are not in them
However many texts I read
I get further away (from you)
In which sea are you dwelling, I wonder in my heart
How do I get to know you
Oh, precious Lord
How do I get to know you.

Baul Abdul Karim says
Have mercy on me
With bent head
I kneel at your shrine
Stay a subject of those who adore you and stay in their hearts
How do I get to know you
Oh, precious Lord
How do I get to know you.
